

European Aviation Safety Agency

Terms of Approval

Design Organisation Approval Certificate EASA.21J.231

1. Scope of approval

This Design Organisation Approval has been granted for:

- designing in accordance with the applicable type-certification basis and environmental protection requirements changes and repairs to aeroplanes in the following areas:
 - Avionics
 - Avionic equipment installation, with related electrical systems and structure
 - Cabin interiors
 - Galleys or other interior equipment
 - Structure
- showing and verifying the compliance with the applicable type-certification basis and environmental protection requirements, and
- demonstrating to the Agency this compliance.

2. Categories of products

Large and small aeroplanes

3. List of products

[Not applicable]

4. Privileges

(a) The holder of this design organisation approval shall be entitled to perform design activities under Part 21 and within its scope of approval.

(b) Subject to 21A.257(b), the Agency shall accept without further verification compliance documents submitted by the holder of this design organisation approval for the purpose of obtaining:

1. a supplemental type-certificate; or
2. a major repair design approval.

(c) The holder of this design organisation approval shall be entitled, within its terms of approval and under the relevant procedures of the design assurance system:

1. to classify changes to type design and repairs as "major" or "minor".
2. to approve minor changes to type design and minor repairs.
3. to issue information or instructions containing the following statement: "The technical content of this document is approved under the authority of DOA ref. EASA.21J.231".
4. to approve minor revisions to the aircraft flight manual and supplements, and issue such revisions containing the following statement: "Revision nr. xx to AFM (or supplement) ref. yyy is approved under the authority of DOA ref. EASA.21J.231."
5. to approve the design of major repairs to products for which it holds the supplemental type-certificate.

5. **Limitations** [See also in 1, above]
1. The privilege of 21A.263(b) (ref. 4.b above) does not include major changes and major repairs related to structure.
 2. The development and certification of software and airborne complex electronic hardware is limited to Design Assurance Level E only.
 3. Temporary repairs are excluded.
 4. Scope of approval on large aeroplanes is limited to aeroplanes where EWIS ICA requirements are not applicable.

Date of issue: 01 February 2013
